## Used documentation

Cookbook	Version	Location
eHealthBox v3 Consultation WS	3.2	<a href="https://www.ehealth.fgov.be/ehealthplatform/nl/service-beveiligde-elektronische-brievenbus-ehealthbox">https://www.ehealth.fgov.be/ehealthplatform/nl/service-beveiligde-elektronische-brievenbus-ehealthbox</a>

## General information

### GetFullMessage

The getFullMessage method is used to get the corresponding complete message and its content to a provided MessageId.

### Request

You can optionally request a message from another of your mailboxes by specifying it via BoxId.

- [Example request](#)

### Response

The response contains the same information as already returned by GetMessagesList plus the Message content in the element Message.

- [Example response](#)
- [Status codes](#)
