## General information

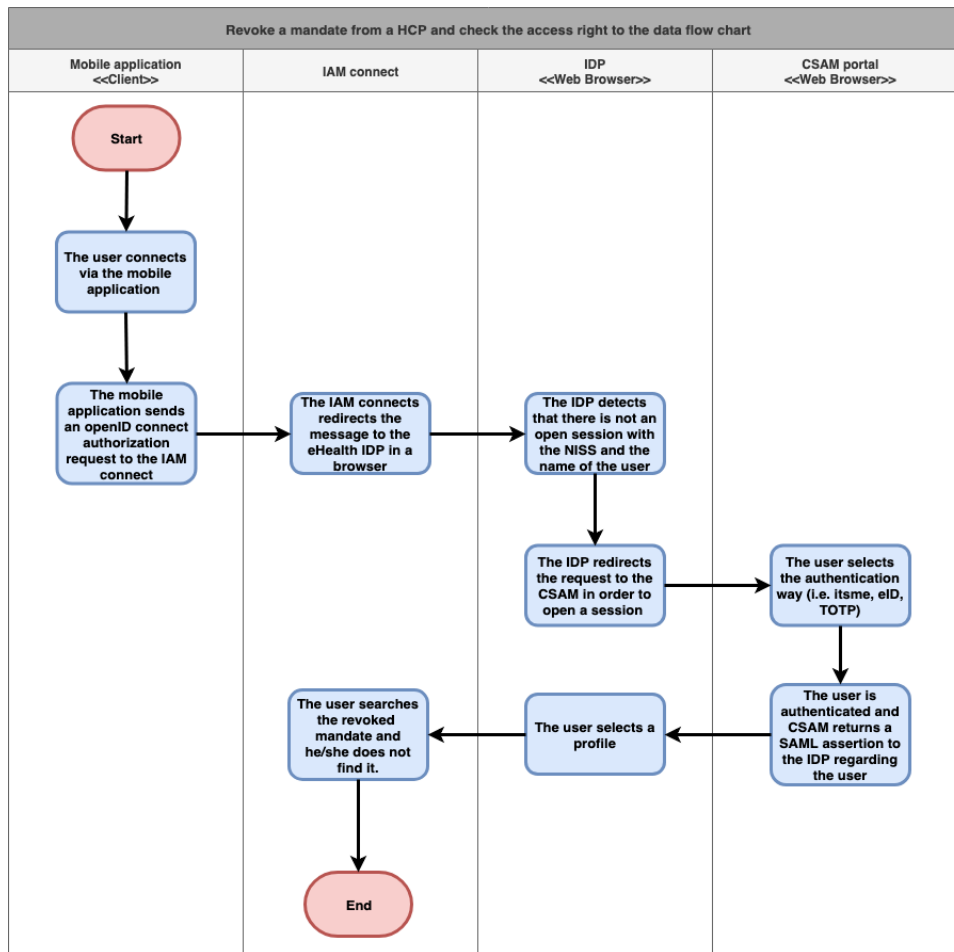

The user chooses a profile/a mandate when he is authenticated in the CSAM portal and identified in the IDP and the AA.

It is possible to manage the mandates [via the following application referred to as Self Service Mandates](#) delivered by the Federal Public Service of the Finance. It enables to

- Create the mandates with limited or unlimited duration
- Revoke the mandates
- Transfer a mandate from a mandated user to an other one

## Basic flow

Flow	Specification
	<div>U s e c a s e ID</div> ATH-UC-25-BF

U s e c a s e n a m e	Revoke a mandate from a HCP and check the access right to the data	
A c t o r s	<ul style="list-style-type: none"> <li>HCP</li> </ul>	
S h o r t D e s c r i p t i o n	In order to check the access right of the HCP when trying to use a mandate, we propose to revoke a mandate from a HCP. Then, the HCP is logged in and he is supposed not to find the revoked mandate. we try to login	
P r i o r i t y	1 (High) Must have: The system must implement this goal/ assumption to be accepted.	
P r e - C o n d i t i o n s	<ul style="list-style-type: none"> <li>The mandate must be deleted beforehand through the application "Self Service Mandates"</li> <li>The user is logged out globally</li> </ul>	
P o s t - C o n d i t i o n s	<ul style="list-style-type: none"> <li>The user does not find the revoked mandate</li> </ul>	
S t e p s (b a s i c f l o w)	1	The user connects via the mobile application
	2	The mobile application sends an openID connect authorization request to the IAM connect

	3	The IAM connects redirects the message to the eHealth IDP in a browser
	4	The IDP detects that there is not an open session with the NISS and the name of the user
	5	The IDP redirects the request to the CSAM in order to open a session
	6	The user selects the authentication way (i.e. itsme, eID, TOTP)
	7	The user is authenticated and CSAM returns a SAML assertion to the IDP regarding the user
	8	The user selects a profile.
	9	The user searches the revoked mandate and he /she does not find it.
	<b>E x c e p t i o n s (e x c e p t i o n f l o w s)</b>	
	<b>Fr e q u e n cy</b>	<ul style="list-style-type: none"> <li>• Every time a mandate is revoked</li> </ul>
