TS-006 (ATH-TS-23): Consult and choose a mandate

User story

- *As a user **I want to** login into the application (MAIN) **So that** I can consult the list of my mandates*
- *As a user **I want to** login into the application (MAIN) **So that** I can choose a mandate*

Initial data/state:

- a mandate with a 3rd person must be defined with mandates-csam (MD-CSAM) application. The principal must give a mandate to the agent corresponding to one or more profiles defined into the application.

Test Script ID	Test Actions	Assertion
TS-006	<table><tr><th>Seq</th><th>Actor</th><th>Action</th><th>Automatic/Manual</th></tr><tr><td>1</td><td>MAIN</td><td>Start an identification action</td><td>Automatic: could be automate but cannot be generic since the applications to test have all a different layout.</td></tr><tr><td>2</td><td>CSAM</td><td>Login via **eid** / **TOTP** / **itsME**</td><td>see TS-001</td></tr><tr><td>3</td><td>eHealth-IDP</td><td>Consult the list of mandates</td><td>Could be difficult to automate as CSAM and MAIN are different applications</td></tr><tr><td>4</td><td>eHealth-IDP</td><td>Choose a mandate</td><td>Could be difficult to automate as CSAM and MAIN are different applications</td></tr><tr><td>5</td><td>MAIN</td><td>/</td><td>/</td></tr></table>	At point 3, the following assertions must be checked: eHealth-IDP: - Mandate list must be displayed by the ID At point 4, the following assertions must be checked: eHealth-IDP: - It redirects to the MAIN application When the test actions are performed the following assertions must be checked (point 5): MAIN - must display an error if the mandate chosen doesn't have the right to connect to the application (MAIN) - must display a welcome page relative to the mandate chosen
