

TS-008 (ATH-TS-25): Revoke a mandate from HCP and check the access right to the data

User story

- *As a principal I want to revoke a mandate So that the agent cannot connect anymore to the my profile(s)*

Initial data:

- a mandate with a 3rd person must be defined with mandates-csam (MD-CSAM) application. The principal must give a mandate to the agent corresponding to a profile defined into the application.
- The user must be logged out of MAIN (cf TS-003) in order to change his mandate

Test Script ID	Test Actions				Assertion
TS-008	Seq	Actor	Action	Automatic/Manual	When the test actions are performed the following assertions must be checked (point 7): eHealth-IDP: <ul style="list-style-type: none">• Mandate list must not display the deleted mandate
	1	MAIN	Start an identification action	Automatic: could be automate but cannot be generic since the applications to test have all a different layout.	
	2	CSAM	Login via eid / TOTP / its ME	see TS-001	
	3	eHealth-IDP	Consult the list of mandates	Could be difficult to automate as CSAM and MAIN are different applications	
	4	MD-CSAM	Revoke a mandate	Could be difficult to automate as CSAM and MAIN are different applications	
	5	MAIN	Start an identification action	Automatic: could be automate but cannot be generic since the applications to test have all a different layout.	
	6	CSAM	Login via eid / TOTP / its ME	see TS-001	
	7	eHealth-IDP	Consult the list of mandates	Could be difficult to automate as CSAM and MAIN are different applications
