

TS-410: Delete OoO

Feature

User story	As a user I want to delete an Out-of-Office In order to remove past or false OoOs
Use case	UC-410: Delete OoO
Test data	The test data is added automatically when starting the automated test scripts. The test data can be found in the project at: <ul style="list-style-type: none">• src/test/resources/testdata/deleteOoOs.json
Expected result	Check the response of the webservice call.
Actual result	Check the front-end of the application under test.
Test pass conditions	Verify that the message is correctly deleted in the OoO list.

Scenarios (Cucumber)

deleteOoO.feature
<pre>#Remove the @ignore-tag(s) of scenarios you want to start testing. @ignore Feature: TS-410: Delete Out-of-Office As a user I want to delete an Out-of-Office In order to remove past or false OoOs @ignore Scenario: Delete an OoO Given user is logged in When user is on the OoO list page And user deletes the OoO in July Then the OoO in July is deleted correctly</pre>
