# **EVS\_Installation\_instructions**

## From EVS 3.3.0 on

The EVS download is available as an installer and can be downloaded from EVS\_Downloads.

The installer requires a Java 8 runtime environment + JAVA\_HOME environmental variable needs point to the path of the JAVA installation !

- 1. Unzip the evs download to a location of your choice
- 2. Launch "run-installer.cmd": 3.3.0-installer EVS-installer 0  $\uparrow \longleftrightarrow \stackrel{2 \text{ items 1 selected ( <1 MB)}}{\bullet \bullet \bullet}$ 42 MB EVS-installer 
   Ih 16'
   jar
   ≦
   EVS-3.3.0

   1h 16'
   cmd
   log run-installer
   15-6-2018 14:00 42,4 MB 15-6-2018 14:00 691 B 691 B
- 3. Choose the parent folder for the EVS installation: IzPack - Installation of EVS 3.3.0 \_  $\times$ Target Path E Select the installation path: C:\ Browse... (Made with IzPack - http://izpack.org/) Next 🖗 🙆 Quit

Click "Next".

4.	hoose the folder name for the EVS installation, by default "EVS"							
	Si IzPack - Installation of EVS 3.3.0 —		$\times$					
	User Data							
	Please choose the EVS installation folder name							
	EVS installation folder: EVS							
	(Made with IzPack - http://izpack.org/)							
	Previous Next	8	Quit					

Click "Next".

5. If the installation detected a previous installation in the directory, a migration is proposed:

Name and the state of the state	-		Х
User Data			
EVS will be installed to C:\\EVS			
A previous installation exists already at the specified location. Please choose one of the following options.			
Migrate existing installation: existing configuration files will be kept Replace existing installation: the previous installation will be completely removed before proceeding with the second seco	e install		
(Made with IzPack - http://izpack.org/)			
	Next	<b>(2)</b>	uit

Choose between migrating your existing installation and erasing the existing installation existing

#### Attention $\oslash$

By choosing for "Migrate" existing installation, all except following files will be erased from the destination folder:

- /logs/\*\*
  /config/\*\*
  /exe/\*\*

start EVS exporter - jeroen.cmd	9-6-2018 22:43	Windows-opdrac	11
💿 start EVS exporter - steven - diarynote.cmd	9-6-2018 22:44	Windows-opdrac	11
💿 start EVS exporter - steven - sumehr.cmd	9-6-2018 22:44	Windows-opdrac	1
💿 start EVS exporter - steven.cmd	9-6-2018 22:43	Windows-opdrac	1
💿 start EVS exporter.cmd	15-6-2018 14:00	Windows-opdrac	1
📄 start EVS exporter.cmd.old 🛛 🦷	15-6-2018 14:00	OLD-bestand	1
start EVS exporter.sh	15-6-2018 14:00	SH-bestand	1
start EVS exporter.sh.old	15-6-2018 14:00	OLD-bestand	11
💿 start EVS.cmd	15-6-2018 14:00	Windows-opdrac	1
start EVS.cmd.old	15-6-2018 14:00	OLD-bestand	1
start EVS.sh Custom launchers that are no	terased 5-6-2018 14:00	SH-bestand	1
start EVS.sh.old	15-6-2018 14:00	OLD-bestand	1

#### (1) Attention

By choosing for "Replace existing installation" all existing files in the destination folder will be erased, including configuration files and processed files.

Use this option only if you have a backup of your EVS installation or if you don't need the previous EVS configuration anymore

No confirmation is asked when choosing this option!

Click "Next".

#### 6. If the installation detected no previous installation in the directory, following summary window is shown:

### Until EVS 3.0.4

1.

Download desired version from EVS\_Downloads.

#### 2.

Unzip the downloaded file.

Downloads	1.0.1	EVS				$\bigcirc$
Archive	EVS	$\uparrow \leftrightarrow \rightarrow 4$	items			
		46'	config	16/10/2017	12:04	>
		46'	exe	16/10/2017	12:04	>
		46'	scenarios	16/10/2017	12:04	>
		46'	system	16/10/2017	12:04	>

#### 3.

Copy/move/rename the needed folders at own desire, taking into consideration the EVS-usage of these folders.

### 🕢 Тір

Bare in mind that a fresh EVS installation is self-contained. I.e. everything is included to allow a plug&play experience to get familiar with the EVS functionalities.

Finetuning of the EVS is possible, please check the manual for this.

Since the EVS installation procedure is a quick&dirty file copy action, one needs to be careful when an existing configuration needs to be migrated to a newly installed version.
