

# TS-002 (ATH-TS-08): Local logout from an application

## User story

- *As a user I want to logout from the application (MAIN) So that the IAM session will be closed*

## Initial data/state:

- The user must be logged in MAIN (cf UC 5, 6 or 7)

## TS dependencies:

- None

Test Stript ID	Test Actions				Assertion
TS-002					<p>When the test actions are performed the following assertions must be checked</p> <p>MAIN application:</p> <ul style="list-style-type: none"><li>• user is disconnected from the mobile application<ul style="list-style-type: none"><li>◦ if test fails, MAIN cannot close session</li></ul></li></ul> <p>eHealth endpoint:</p> <ul style="list-style-type: none"><li>• The IAM session should be closed</li></ul>
	Seq	Actor	Action	Automatic/Manual	
	1	MAIN	login into the application	see TS-001	
2	MAIN	logout from the application	Automatic: could be automate but cannot be generic since the applications to test have all a different layout.		
TS-002-02					<p>When the test actions are performed the following assertions must be checked</p> <p>CSAM application:</p> <ul style="list-style-type: none"><li>• the profile is not more asked<ul style="list-style-type: none"><li>◦ if test fails, the logout was not local but global</li></ul></li></ul>
Alternative test if eHealth endpoint not available	Seq	Actor	Action	Automatic/Manual	
1	MAIN	login into the application	see TS-001
