

TS-005 (ATH-TS-11): Change the profile of a user

User story

- *As a user I want to change my profile So that the application (MAIN) could display relevant information related to my profile*

Initial data/state:

- Application profile configuration must be fill in (see [Test Scripts: Athena \(deprecated\)](#))
- The user must be logged out of MAIN (cf TS-003) in order to change his profile

Test script ID	Test Actions				Assertion
ATH-TS-005-01	Seq	Actor	Action	Automatic/Manual	<p>When the test actions are performed the following assertions must be checked:</p> <p>MAIN application:</p> <ul style="list-style-type: none">• The application must display correct information/layout following the chosen profile (OLD and NEW ones) <p>eHealth endpoint:</p> <ul style="list-style-type: none">• The IAM session should be open• The IDP session should be open with the corresponding profile• It redirects to the MAIN application
	1	MAIN	Login into the application and choose the OLD profile	Automatic: see TS-001	
	2	MAIN	Global logout from the application	Automatic: could be automated but cannot be generic since the applications to test have all a different layout. See TS-003	
	3	MAIN	Starting a new identification action to choose the NEW profile	Automatic: could be automated but cannot be generic since the applications to test have all a different layout.	
	4	CSAM	Authentication via eid / TOTP / itsME	Automatic: see TS-001	
	5	eHealth-IDP	Consulting the list of profiles	Could be difficult to automated as CSAM and MAIN are different applications	
	6	eHealth-IDP	Choosing the NEW profile	Could be difficult to automated as CSAM and MAIN are different applications	
	7	MAIN	/	/
